PROFILE CAREER SUMMARY

Now, I am preparing to get my Phd degree after I had completed my master degree in computer science in early 2008. I am a computer science graduate from the Faculty of Computers and Information at 2000 with graduation grade "**very good with honor**" and Excellent grade in the graduation project. Also, I have a good experience in .NET (c# -VB), ASP.NET and ADO.NET. I have the ability to work under pressure as I used to work in projects with a deadline and finish them on time. I am an excellent team worker as I had used to work in groups. I have good ability to learn for new technologies as I am familiar with MS SharePoint Portal and ERP applications. Currently, I am working in the Ministry of Communication and Information technology as an IT unit manager in the engineering department. I have worked in IS Dreams company as technical project manager. Before that I have been working in Presidency Information Center as technical project manager for implementing about 60 application. It was a result for my achievements in the Ministry of Communication and Information technology.
